

CHILDREN'S TABLE & CHAIRS SET

Our Children's Table and Chair Set is built to last and perfect for a pediatric office, lobby or waiting room. Rounded edges and strong material choices make this set a great place to play with stuffed animals, draw a picture, or even build a puzzle or two. Built from Baltic birch ply topped with a maple veneer that is then dyed with brilliantly hued dyes. Standard colors are a vibrant orange for the table and bright green for the chairs. The gloss finish is a low-VOC catalyzed varnish. The table legs are steel, powder coated with an aluminum finish. Easy assembly, we provide the wrench. The set includes 1 table and 2 chairs, additional chairs are extra.
