Overbed Table Accessories

Configure the Overbed Table Around the Patient Room

MedViron overbed table accessories add storage, organization and convenience while allowing healthcare facilities to configure the table for different patient-room needs. Choose from cupholders, tablet holders, vanity trays, undermount storage and the Care Pod, with options available for select medViron overbed table models.

CarePod

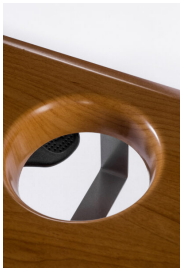

Keep the Tabletop Available for the Patient

The medViron Care Pod adds caregiver-accessible storage beneath the 39" overbed table, helping keep routine bedside supplies organized without occupying the patient's tabletop.

Its open configuration provides convenient access to items such as wipes, gloves, emesis bags, specimen cups, masks and other frequently used supplies while keeping them separate from the primary patient surface.

Available on: 39" Overbed Table and 39" Sotto Overbed Table.

Cupholders

Integrated pass-through cupholders provide a designated location for beverages without adding a separate component to the tabletop. Their open-bottom design also makes the area easier to access during routine cleaning.

Available on: 32", 36" and 39" medViron overbed tables.

Tablet Holder

The optional tablet holder provides a convenient position for compatible tablets used for entertainment, communication or other bedside activities while helping preserve usable tabletop space.

Available on: 32", 36" and 39" medViron overbed tables.

Vanity Mirror Tray

The vanity mirror tray provides convenient bedside storage with an integrated mirror, giving patients easy access to personal items without requiring them to remain on the primary tabletop.

Available on: 32", 36" and 39" medViron overbed tables.

Overbed Table Accessories

Undermount Shelf

The patented undermount shelf adds storage beneath the tabletop without increasing the table's footprint. A removable tray provides an accessible location for personal items and other frequently used belongings.

Available on: 32", 36" and 39" medViron overbed tables.

Hanging Pedestal Storage

Designed for 39" medViron overbed tables, the patented hanging pedestal provides two levels of storage beneath the tabletop. Removable trays make stored items easier to access and simplify routine cleaning.

Available on: 39" medViron overbed tables.

CarePod

Caregiver-accessible storage beneath the tabletop helps keep frequently used bedside supplies organized while preserving tabletop space for the patient.

Available on: 39" Overbed Table and 39" Sotto Overbed Table

Configuring Your medViron Overbed Table

Accessory selection is only one part of choosing an overbed table. Base configuration, tabletop size, bed or seating compatibility and available storage can all influence which table is appropriate for a particular patient-room environment.

Explore the complete medViron overbed table collection to compare H-base, U-base, I-base, X-base and Sotto configurations.
